

The word with **Pastor Lanre Oluseye**

Message title: **It is not over**

Text: **Luke 13:6-9**

Life happens to everybody, sometimes we are able to dodge it all, but sometimes it catches up with us.

So today I want to talk to the real you, the one with the real life issues.

Life is ruthless, it happens to everybody, irrespective of their pedigree, but they all cover it up with smiles and designer clothes. That is why you don't need to envy people, because you don't know

what it takes to be them.

No one else knows what it takes to be you, so be encouraged. If you feel left behind, know that delay

is not denial and that it is okay to feel like a late bloomer.

Jesus started ministry at 30 and His life span was 33. So He was a late bloomer in human perspective.

It doesn't matter where you are right now. It is only a place of preparation for the greatness you are

about to experience.

Luke 13:6-9: People feel like you should have achieved more and be further ahead by now, but they are

not carrying the load you are carrying, so don't be bothered, keep pushing on because it is not over.

The reason why some don't go as far as they ought to, is because the weight they carry, their responsibilities are greater. So, let's not be quick to cut off the fig tree in a vineyard.

This is God's prophetic word for us: IT IS NOT OVER. It may seem like it is, but be assured that it is

not over because God chooses the foolish things of the world to confound the wise. (Luke 13:6-9)

It doesn't matter how far behind you think you are. You will be back, because God says, "It is not

over". Rejoice not over me my enemies, when I fall, I will rise again because it is not over. (Luke 13:6-9).

Prayer: May God raise an advocate for you when you cannot defend your case, to defend you and stand

for you until they see the will of God come to pass in your life. May God raise intercessors for you.
